

ered over a radius of about fifteen miles of course their attendance is irregular, and consequently some lose interest and don't come at all. The Sunday school was reasonably patronized last fall, but the winter Sundays have been bad and consequently for the last two or three Sundays there has been no Sunday school.

I thought when I read Brother Hixson's letter from the Kanemorado district of their need of more laborers, that if we could divide up with them, we would gladly do it, but are in the position of those of the eleventh hour individuals whose answer for being idle was, because no man hath hired us, not even invited us, and for this reason, looking over the list of ministers of the Brethren church, I am forced to the conclusion that there are so many idle ministers and yet so many churches needing preaching. Where is the wrong? Can it not be remedied in some way? I am satisfied that many of them are longing for the least indication for an opportunity to do more work in the Lord's vineyard.

#### The Christian Co-Operative Colony. Located at Sunnyside, Yakima Co., Washington

Its promoters have investigated a number of other states, including Tennessee, Louisiana, Texas, Colorado, Arizona, California and Utah. They feel assured that in their selection of Sunnyside, Washington, that they have made a wise choice, where

1. The climate is healthful and pleasant. No cyclones, no thunderstorm and no sunstrokes.
2. There is the greatest variety of fruit, vegetables and general farm products reaching perfection.
3. The conditions for raising all kinds of stock, and for dairying are the most favorable.
4. There are fewer flies and mosquitoes than are found in the average locality in the Mississippi valley.
5. The soil is of unexcelled fertility, and is six to forty feet deep.
6. Lands can be had from first hands.
7. All is under one of the most reliable and perfect systems of irrigation in the United States. The supply of water is greater than the demands of the country can ever require.

Up to date the following persons have investigated and purchased lands:

C. Rowland, Lanark, Ill.  
H. M. Lichty, Carleton, Neb.  
Joseph Stitzel, Lanark, Ill.  
D. M. Fike, Carleton, Neb.  
S. J. Harrison, Falls City, Neb.  
Jacob W. Miller, Waterloo, Ia.  
J. E. Laird, Lanark, Ill.  
D. B. Eby, Lena, Ill.  
Sam H. Miller, Waterloo, Iowa.

These parties have already begun the improvement of their lands and do not expect to stop until every foot of their purchase is in cultivation. Any person interested can correspond with any of the above, enclosing stamp for reply.

Each land owner operates his own tract. The "Co-operation" consists in advertising and developing the country materially, socially, intellectually and religiously.

The promoters are Dunkards in religious faith, and care will be exercised to preserve the identity of both conservative and progressive branches of the church. We hope to establish a great stronghold of Christianity in the Yakima valley upon the favorable conditions existing. For descriptive pamphlet, address

Dr. E. J. WORST, Ashland, Ohio

Dr. E. J. Worst, of Ashland, O., has made himself famous in a few years by a treatment for Catarrh and Bronchitis, of which he is the originator. While physicians generally were treating these very common diseases with sprays and douches, Dr. Worst perfected his dry air treatment. Air is the only agent that is fine enough to reach the air cells of the head and respiratory organs. It was the agent that carried the disease there, and it must be the one to successfully remove it. Vapors, sprays and atomizers are all dangerous. Nature never intended them for the windpipe, and instantly repels them. When you get a drop of water down "the wrong way," how soon you cough and gag. This is because nature has placed a very sensitive valve in the windpipe, which closes the instant water in any form comes in contact with it. The only way to reach the inflamed membranes of these organs is by properly medicating the air you breathe. Not one person in fifty was ever cured by the old method of treating catarrh, now everywhere condemned. Dr. Worst has been so uniformly successful in curing patients that he writes, asking us to make the following announcement:
